Saturday 9am to 12pm

LOBBY:

Monday-Friday 9am to 4pm

MORE UPDATES to our SOUTHWESTERN BLVD. BRANCH!

We are excited to share the latest, and final upgrades at our Main Branch.

New & Improved DRIVE-THRU LANES!

We know efficiency is important to our members, and the final piece of our branch improvements at our Southwestern Branch is an efficient, new Drive-Thru system. If the door on the tube isn't open, just hit the "Call" or "Send" Button and the door will open to give you access. The third lane also now more easily accommodates trucks and large vehicles. **Please note, we cannot accept any rolled coin through these new tubes.** We ask that you come inside the lobby with rolled coin and use our convenient coin counter.

If you haven't used the new ATM in the first lane along the building, there's a lot to know! The new ATM accepts deposits for Meridia Accounts without an envelope for your convenience. If you notice the other Drive-Thru lanes are busy, you can also use the ATM as an Interactive Teller (ITM) during Teller Hours!

We are grateful that our lobbies at all branches are open once again! We suggest calling or messaging us ahead of time for an appointment. If you haven't stopped in since last year, we invite you to stop and check out all the changes. We are excited to see you and introduce our new and improved Main Branch.

Our first lane ATM is also an ITM during Teller Hours. Leave the line behind and talk to a live teller! And, YES - anything you do through the Drive Thru can be done at the ITM!

Spend Smart

Spring Edition

April is a great time to tidy up financial documents.

Sure, disorganization can cost you time, but it can also cost you money. If you have to replace an original document, like the title to your car or a lien release showing a loan has been paid in full, there is usually a cost to replace it. By creating a system and one convenient, secure place for all your financial documents, you make it quick and easy to find what you need when you need it. Prefer an electronic file system? Scan the relevant documents and save them in a digital file. Not only does this clean up your home office space, it makes your life just a little less scattered.

Keep your savings organized as well! Creating separate savings accounts for life events, goals or specific needs (like taxes or insurance) makes it easy to realize your goals, and not have to worry about having what you need when you need it. Check out our [Club Savings](#) for seasonal goals, or [U-Name-It Savings](#) to make goals achievable!
